DETAILED ACTION

Allowable Subject Matter

1. Claims 4-7 allowed.
2. The following is an examiner's statement of reasons for allowance.

Prior art of record fails to teach or fairly suggest a method for converting a three-party connection between two subscribers and an operator or call center into a two party-party connection via using a tariff model as recited in independent claims 4 and 7 and shown in figure 1.

Prior art (Rogers et al 5,617,471) teaches that a call between the two connected users always remains connected only to switch A, and does not involve other respective switches as required by independent claims 4 and 7 (see paper dated 8/17/05, page 5, middle paragraph starting at "Rogers, a call between the two connected users always remains connected only to switch A, etc. for support for Examiners reason for allowance).

Prior art (Curtis et al 6,614,897) also teaches 3-way connection converted to 2-way connection but does not have a physical connection between parties A and C that is rerouted without passing through the network switch (see paper dated 12/06/05, page 4, last ten lines for support for Examiners reason for allowance).

Prior art of record (Carrion et al 6,611,585) is the closest art that improves on Rogers et al listed above wherein all resources held by the operator will be released when 3-way call converted to 2-way call (see line 134 in figure 1 and column 3 lines 54-57). However, Carrion is silent with respect to tariff model and cannot be applied as prior art since the filing date of Carrion et al (2/15/00) is well after Applicants effective filing date (5/17/99).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barry W. Taylor, telephone number (571) 272-7509, who is available Monday-Friday, 8am to 5pm.
